Professional Summary

I am a bilingual digital artist and graphic designer with five years of practical experience in UI design, NFT creation, social media content and other related skills. I am proficient with Adobe Creative Suite and have a rich background in the art world. I have a multitude of digital skills in creative and digital masters and am experienced in project management, client communication and collaboration, and the development of online presence and attracting clients. My experience includes delivering high-quality, timely projects and growing follower numbers organically.
